firm specializing in regulatory  
compliance and consulting services for  
select industries.

No matter how sophisticated the technology, it still takes people!™

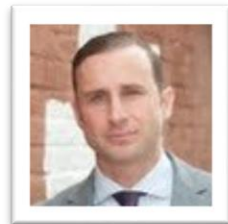

Mile High Chapter of the AITP, a  
nonprofit association dedicated to  
serving the upwardly mobile IT  
Professional.

## Join us on October 17<sup>th</sup> for Focus on PCI:

**Leading PCI DSS QSA and Cyber Security specialist Charles Denyer of NDB Advisory discusses important issues, topics, and best practice regarding the ever-growing Payment Card Industry Data Security Standards provisions.**

With PCI quickly evolving as arguably North America's most well-known and widespread regulatory compliance mandate, Charles will focus on the following essential concerns for helping companies get compliant in an efficient and cost-effective manner:

- PCI Compliance – Introduction and distilling the complexities of the Payment Card Industry Data Security Standards.
- PCI Reporting Levels – From SAQ compliance to Level 1 Onsite Assessments, what you need to know.
- PCI Mandates – Who has to be compliant, why, and associated fines and penalties
- PCI Policies and Procedures – Why they're so fundamentally important and where to obtain them.
- PCI Top 10 List – PCI QSA Charles Denyer's Top 10 List of PCI Issues, concerns, and challenges for merchants and service providers.
- PCI Helpful Tool – A brief discussion on free and cost-effective PCI DSS compliance tools.
- Closing – Best practices for becoming – and staying – PCI DSS compliant.

**Charles Denyer** is a nationally recognized cyber security and compliance specialist focusing on Regulation AB, Service Organization Control (SOC) reporting (SSAE 16, AT 101, Trust Services Principles | TSP), ISAE 3402, FISMA, FIPS, CMSR | SSP, GLBA, FFIEC, NIST SP 800, HIPAA, ISO and PCI DSS compliance, along with many

other regulatory compliance initiatives. He is also actively involved in numerous professional associations and organizations for a wide range of industries and business sectors, such as the American Nuclear Society (ANS), ISACA, and the Cloud Security Alliance (CSA), just to name a select few.

Additionally, Charles holds numerous accounting and technology certifications along with a Masters in Information and Telecommunication Systems from the Johns Hopkins University and a Masters in Nuclear Engineering from the University of Tennessee at Knoxville. Expertise includes information security, cyber security, national security and homeland defense, and conducts independent research projects on specific subject matter for various entities. He can be reached at [cjdenyer@gmail.com](mailto:cjdenyer@gmail.com).
